| 3.1.1 Submission Guidelines | <p>For Round 5, OFRN is instituting a simplified submission process. The required Technical Volume content is similar to that required in Air Force SBIR/STTR Open Topics, Pitch Days and Direct to Phase II's and is intended to be applicable to those opportunities as well. Initial submission requires an 8-page Technical Volume, 2-page Supplemental Technical Volume. A Business/Cost Volume along with a 15-slide Pitch Deck will be required after a formal down select process is conducted. More detailed information is included in the Technical Volume and higher-level information is included in the slide deck. In the sole determination of OFRN, Proposals that exceed these page limitations may be disqualified from further review.</p> <p>Applicants selected to move forward in the process based upon a review of the Technical Volume, will be required to submit a 15-slide Pitch Deck and physically present the slide deck during an in person (or virtual) presentation. Pitch presentations will be made to the Technical Review Council which will base proposal scoring holistically on the Technical Volume, Pitch Deck and Pitch Presentation. Awards will be decided after the Pitch Presentations which will take place</p> | | <p>For Round 5, OFRN is instituting a simplified submission process.
