Department of Defense Laboratories: Recalibrating the Culture

With the emergence of China as a near peer competitor and Russia still “saber rattling” with technological advances in missile and space technologies, Labs need to recalibrate from a near term, terrorism mindset, focused on rapid transition, back to a more deliberate, threat informed technology development that supports Great Power competition with China and Russia.

We are a 501(c)(3) nonprofit delivering research, technology, and human and business solutions via The Science of Intelligent Teaming™ to our government, industry, and academic clients in Ohio and the Nation.

We define the The Science of Intelligent Teaming™ as basic and applied research of highly diverse artificial intelligence, machine, and human teams and how they interact and perform with one another.

Together with academia, we accelerate innovation that leads to new breakthroughs. Together with government, we tackle critical global challenges and deliver new solutions. Together with industry, we develop groundbreaking ideas and speed them to market. This is where everything comes together. This is why Parallax is here.

Academic Partnership Engagement Experiment (APEX)

News

Four reasons why you should use the US Air Force SBIR STTR program as a vehicle to finance your technology company/idea

Technology startups are hard. The term “valley of death” has been used to describe the difficulty of attracting funding needed for you to obtain customers, attract more funding, and get to a cash-flow positive position. It’s real and still around. The Department of the Air Force’s (DAF) Small Business Innovation Research and Technology Transfer (SBIR/STTR) program can be a fantastic vehicle to help get you get past the “valley of death” and realize your entrepreneurial dream.

Digital Enterprise Transformation: addressing near-peer threats through innovation

The United States is engaged in a strategic competition. Not since the end of the Cold War has our country been challenged politically, economically, and militarily as it is

APEX is a Department of the Air Force (DAF) partnership intermediary program managed by Parallax Advanced Research that cultivates innovation for DAF by expanding the American research enterprise through academic, industry and government collaborations.

The APEX program eliminates barriers in accelerating the transition of science and technology solutions into transformational DAF operational capabilities. The program was established in 2019.
