Capabilities

Cleveland State University's new, state-of-the-art engineering facility, Donald E. Washkewicz Hall

Research Strengths at CSU

- Networking in extreme environments
- Collaborative robots and swarm optimization methods
- Additive manufacturing of metallic and composite materials
- Machine vision
- Artificial intelligence and machine learning
- Advanced controls for energy management, vibration reduction, and more

Benefits of Working With CSU

Cleveland State's researchers bring deep expertise to both basic and applied research projects, and we prepare our students to be the next generation of researchers and workforce in aerospace.
