## Picture (and more Capability Description)

NEXA Advisors - Service Experience by Sector

## Description in Bullet Format

(Relate to Requirement(s) & Heilmeyer Questions)

- NEXA provides investment banking services in the aerospace, defense, transportation, and geomatics sectors
- NEXA emphasizes transformational investment opportunities in untapped markets, such as the rapidly growing Urban Air Mobility market
- Proprietary financial and econometric modeling coupled with in depth city-by-city geomatic analytics provides a clear path forward for investors, operators, legislators, and transportation authorities
- NEXA management has over 40 years of experience as trusted advisors to institutional investors and top management in the aerospace, transportation, and finance sectors

## Requirement(s) Benefits, Money Saved, Eliminates What?

- What benefits does the technology enable? NEXA professionals have a unique understanding of the challenges facing the aviation and aerospace sectors and can offer better insights and solutions than most investment banking firms
- NEXA recently completed a statewide 25-year economic impact assessment and geomatic mapping analysis for the Ohio Dept. of Transportation and has worked with notable clients such as NASA, Uber, Boeing, Joby, Wisk and many more
- NEXA's provides clients with innovative, value-adding, and pragmatic investment banking and strategic advisory services
